Summary

With over 2 years of experience in **HTML/CSS/JavaScript front-end development,** I have honed my skills in **HTML, CSS, JavaScript, ReactJS, SCSS, Less, Bootstrap, and TailwindCSS.** I create websites with a clean HTML structure, responsive layouts for any devices, and connect various **HTML forms, scripts, and animations**. I have experience in collaborating closely with designers. I used **Figma, Zeplin, Illustrator, and Photoshop** to build websites from scratch or from other templates.

Skills

- Html5, Pug, Web accessibility
- Css3, Scss, Less, Bootstrap, TailwindCSS
- Javascript, Typescript, ReactJs, Reduxjs toolkit, Redux-saga
- Version Control Systems like Git, Github, Gitlab
- Management of Rest API
- Figma - Zeplin - Photoshop - Illustrator
- Experience with php, nodejs, .net MVC, .net Core rasor

Experience

Freelance
06/2021 - present
Front-end developer

After working at **Murtsku**, I became a freelancer. During my freelancing period, I managed several personal projects and projects for some private companies using modern web technologies like **ReactJs, tailwindCSS, typescript**.

I gained my technical knowledge of web building from courses Geolab, DK Academy, and SkilWill Swiss College

Murtsku
11/2019 - 05/2021
Markup developer

While working at Murtsku, I had the opportunity to participate in updating the markup of www.Lupi.ge.   The team started creating www.tvschool.ge, where I organized the HTML markup

in a ReactJS environment, utilizing SCSS, LESS, and Tailwind CSS. Working at Murtsku gave me great experience in both getting to know and refining web technologies, as well as improving my teamwork skills.

Freelance
04/2018 - 10/2019
Front-end developer

After finishing the Geolab Course, I started some projects for myself, using web technologies like **HTML, CSS, Bootstrap, JavaScript, and jQuery**

- [Portfolio on pure JavaScript](#)

And projects for mini business:

- [Mexican bakery](#)
- [Web studio](#)

Education

Front-end React development   10/2025 -
Present
Certificate
[Skillwill Swiss College](#)

. We are learning JavaScript, Typescript, ReactJS, NextJS, and libraries like Redux

Front-end development
09/2023 - 11/2024
Certificate
[academy.dk.ge](#)

With the help of experienced lecturers at the academy, I studied Front-end technologies -

JavaScript, ReactJS, Bootstrap, TailwindCSS.

Final project - **https://reach-star-blog.netlify.app/**, using ReactJS, TailwindCSS, and the **API**.

HTML/CSS Markup Course
12/2017 - 03/2018
Certificate
[geolab.edu.ge](#)
In Geolab, we went through **HTML, CSS, JAVASCRIPT, BOOTSTRAP, SCSS, and LESS** technologies.

As a final project, I made **https://stickers-js.netlify.app/**, using HTML, CSS, JavaScript, and JavaScript libraries.
